SECTION SF 30 BLOCK 14 CONTINUATION PAGE

The following items are applicable to this modification:

Revised Section

02100

02221

02999

C. CONTRACT DRAWINGS - FILE NO. DSH 112/124: Sheet 13 with Revision 1 and Sheets 3, 6, and 12 with Revision 2 dated 28 July 2003 are hereby added to and made a part of the contract drawings.

D. THE FOLLOWING QUESTIONS RECEIVED UNDER SUBJECT SOLICITATION ARE ANSWERED BELOW:

- (1) Question: Due to the importance of tube reinforcement, having the seams vertical to the length of the tube structure we have a geo tube structure designed using the Geo Cops version 2.0 as developed by wes. See attached profile) The design allows the use of one structure instead of two giving the same required elevations yet provides further protection in volume. It also eliminates the problem of placement and the potential of loosing the upper tube during installation. Would this be acceptable? This design also eliminates any parallel seams that are load bearing to the length of the structure.

Answer: The Contractor's bid should be based on the design contained in the plans and specifications.

- (2) Question: Can Limestone like rock that exceed the density and LA abrasion specification be acceptable?

Answer: No, see revised section 02999, Materials, paragraph 2.1.2.

- (3) Question: Does the Buy American Act Apply?

Answer: Yes, see Clause 52.225-9 Buy American Act - Construction Materials (May 2002), Clause 52.225-13 Restrictions on Certain Foreign Purchases (Jul 2000) and Clause 52.225-10 Notice of Buy American Act Requirement - Construction Materials (May 2002).
